

Procedures and Fees of 6-month Business Management Visa Application With Program to Increase Foreign Entrepreneurs in Tokyo

Regarding to the Program to Increase Foreign Entrepreneurs in Tokyo, a special 6-month Business Management Visa (“Start-up Business Visa”) is launched for foreigners who are planning to start a business in Tokyo. Applicants shall submit the business activities plan to Tokyo Metropolitan Government before submitting the visa application to the Immigration Bureau. After obtaining the approval from Tokyo Metropolitan Government, applicants can apply business management visa with 6 months validity to enter Japan for incorporating the company and starting to launch that business.

According to current regulation, foreigners who wish to start business in Japan need to hold a business management visa. To be approved to receive this status of residence, applicants need to incorporate a company in Japan first, and must employ at least two full-time staff, or invest at least 5 million yen. To fulfill above requirement, foreign entrepreneurs always need to find a business partner in Japan, to assist in those processes such as renting an office as business address, etc. It is complicated for one-man company to start business. Therefore, Tokyo Metropolitan Government would like to help foreign entrepreneurs to solve these problems and increase foreign entrepreneurs by introducing this new program. Currently, applying this Start-up Business visa would be the fastest way for foreign entrepreneurs to go to Japan and start a new business.
